\$500,000 IN ROBBERIES

"Silk-Mask Burglar" Killed in Battle

With Chicago Police After Bombarding Stationhouse

Chicago, April 29.—Seven hundred robberies, whose loot is believed to total more than \$500,000, were cleared up yesterday, when police examined the effects of Henry J. James, "silk mask burglar," who was killed last night after "snooting up" the Town Hall Police Station, wounding two patrolmen.

In James' private warehouse, where truck loads of rare art works, Oriental rugs, jewels, typewriters, adding machines, and dozens of other articles were found, police uncovered a card index, in which the 700 robberies were listed, with the loot obtained.

Another section of the card file listed "prospects" and the wealth of

data about them indicated that James had used an electric light in his attacks, and found in his pocket to gain entry to the houses.

A third file listed "gold coast" automobiles with description, license number, owner's name, and "fair," "good" or "bad" to indicate the valuation.

Police also found Rogers listing loot won, with the price obtained, and a list of pawnbrokers with the type of goods each preferred to buy.

In a secret chamber in the basement were 150 Oriental rugs, appraised by an expert at \$40,000.

When James was killed he was found to be wearing a suit belonging to former United States Senator Lorimer. The suit was one of forty stolen from a tailor shop.

Total damage of the United States from 1793 to 1915 amounted to \$4,500,000,000.
